

Curicyn™ Original Wound and Skin Care Formula

Curicyn's Original Formula helps expedite the healing process, allowing the wound or skin to heal with little or no scarring. It has proven effective on all animal species. It can be used on any external area of the animal, including eyes, ears, nose, etc. Does not stain, burn, itch or create any sensitivity to the animal when applied.

Recommended Use:

- Open Wounds
- Puncture Wounds
- Pre and Post Stitches
- Lacerations
- Scrapes
- Burns/Sunburns
- Skin Disorders, Hot Spots, Lick Granuloma, Rashes, Dry and Itchy Skin
- Fungus
- Rain Rot
- Ringworm
- Saddle Sores
- Eye Irritations or Injuries
- Equine Scratches
- Yeast Infections of the Ear
- Equine and Livestock Branding
- Livestock/Calves Castrations
- Newborn Bulls/Calves Navels
- Works on All Wounds

6 Size Options Available:

- 2 oz. Spray Bottle (companion pet application; travel size)
- 8 oz. Spray Bottle (companion pet application)
- 16 oz. Trigger Spray Bottle
- 24 oz. Adjustable Trigger Spray Bottle (large animal or companion pet; most universal package)
- 1 gal. Refill Bottle (large animal or companion pet)
- 1.33gal. Pump Spray Bottle (large animal or livestock)

"I treated a deep cut as I usually do, but after six weeks it just quit healing, no matter what I tried. I started using Curicyn and it immediately began to heal again. Great product, and I would use it again."

TONY SCHEIBER, DVM
WYOMING

Curicyn™ Eye Care Solution

Fast-acting Curicyn Eye Care Solution is an adaptation of our Original Formula, modified to make it more suitable for animal eye application. It is packaged in a 2 oz. twist-open dropper bottle. Curicyn Eye Care Solution helps remove bacteria, reduce inflammation, soothes and calms red, itchy, irritated eyes. Cleans and aids in the prevention of a variety of eye-related issues in all animal species. Will not burn or sting when applied.

Recommended Use:

- Conjunctivitis
- Eye Injuries
- Goopy Eye
- Burning or Dry Irritated Eyes
- Irritation from Insects
- Eye Cleanse/Wash

“Our pony kept getting bacterial build-up and irritation in his eyes, so I treated it with Curicyn Eye Care Solution two times in a 24-hour timeframe. The next day his eyes were completely clear, and the problem has not come back! Amazing product!”

CHRISTA B.

Curicyn™ Wound Care Clay

Curicyn Wound Care Clay helps aid in the healing process on difficult-to-bandage wounds. Great for packing wounds and hooves. It is formulated using a combination of bentonite clay, our Original Formula, aloe, plus several other active ingredients that help accelerate the healing process. Will not burn or sting when applied.

Recommended Use:

- Open Wounds
- Skin Disorders
- Abscesses, Thrush and White Line Disease
- Sunburns
- Saddle Sores
- Ringworm
- Pecking Wounds
- Summer Sores
- Rain Rot
- Fungus
- Scratches/Mud Fever
- Ear Infections from Yeast or Mites

2 Size Options Available:

- 3.2 oz container (Companion Pet or Travel Size)
- 16 oz. container (Large Animal)

“I am beyond impressed with the Curicyn products! My gelding had some pretty nasty cuts on his face, and by using Curicyn Clay and my all-time favorite Original Formula Spray he’s healing amazingly fast! His hair is growing back and I don’t even think he’ll have any scarring. Curicyn is officially my go-to from now on! The company really cares about you and your animals.”

TAYLOR NOELLE

Curicyn™ Ear Cleansing Solution

Fast-acting Curicyn Ear Cleansing Solution is an adaptation of our Original Formula, modified to make it more suitable for animal ear application. It is packaged in a 3 oz. twist-open dropper bottle. Curicyn Ear Cleansing Solution addresses bacteria at its source, helps reduce inflammation, cleans and helps relieve irritation associated with ear infections. Cleans and aids in the prevention of a variety of ear-related issues. Will not burn or sting when applied.

Recommended Use:

- Ear Cleanse/Wash
- Ear Irritations and/or Injuries
- Ear Infections from Yeast or Mites
- Ear Infections from Bacteria
- Irritations Caused by Moisture

"My dogs are prone to ear problems. I've had great results with Curicyn Original Formula, so when I heard that Curicyn is now offering an ear cleansing solution I got a bottle to try. It's surprisingly easy to use. And best of all, my dogs were very cooperative during the process. Thank you for a great new product."

Curicyn™ Hot Spot Formula

Fast-acting Curicyn Hot Spot Formula is an extra-strength solution formulated to address hot spots, lick granuloma and other skin disorders. It is packaged in a 3 oz. twist-open dropper bottle for easy application. The Hot Spot Formula is non-toxic, steroid and antibiotic-free. It promotes rapid healing, helps reduce inflammation and helps relieve irritation. Cleans and aids in the prevention of a variety of skin issues in all animal species. Will not burn or sting when applied.

Recommended Use:

- Hot Spots
- Lick Granuloma
- Skin Disorders

Curicyn™ Blood Stop Powder

Curicyn Blood Stop Powder slows the flow of blood by constricting local vessels and capillaries. It comes in a 3 oz. twist-open bottle for easy application. Just twist the cap off and you can accurately apply the powder right to the wound. The applicator can also easily reach down inside a deep wound that is bleeding. Once bleeding has stopped, Curicyn Original Formula or Curicyn Wound Care Clay can be applied to help reduce inflammation and promote healing. Perfect to have on hand for emergencies.

Recommended Use:

- Minor to severe external wounds
- Minor bleeding
- Superficial Cuts
- Dehorning in Livestock
- Newborn Bull/ Calf Castration
- Surface and deep wounds

“Curicyn’s Blood Stop Powder works great! I used it on my pup and it stopped the bleeding almost immediately. Roxy didn’t seem to act like it bothered her like other products have in the past. Definitely a product I am going to keep on hand.”
BRENDA M.

Curicyn™ Dual Action Gel

Curicyn Dual Action Gel - Insect Barrier Wound Care Gel has been specifically formulated to help heal and protect. It addresses difficult-to-bandage wounds and skin issues in which flies or insects may be an issue. Curicyn’s Dual Action Gel should not be used around the animal’s eyes nor should it be used on feline species. Will not burn or sting when applied.

Recommended Use:

- Open Wounds
- Wire Cuts
- Difficult-to-Bandage Wounds
- Forms a “Second Skin”
- Helps Eliminate Bacteria
- Helps Repel Where Insects/ Flies are an Issue
- Equine and Livestock Branding
- Livestock/Calves Castrations
- Newborn Bulls/Calves Navels

2 Size Options Available:

- 16 oz. Trigger Spray Bottle
- 24 oz. Adjustable Trigger Spray Bottle

“I used Original Formula at night and Curicyn Dual Action Gel with Fly Repellent in the morning on a cut on my horse’s shoulder. The gel helped shed the dead tissue.”

Curicyn™ Pink Eye Kit

Curicyn's Pink Eye Kit is a multi-application kit designed to address pink eye and its effects. Curicyn's Pink Eye Solution is a gel-based formula with an easy one-time application. The gel consistency helps the solution remain in contact with the entire eye to aid in a faster healing process. The biodegradable eye patches not only help protect the eye from environmental hazards such as dust, grass and UV rays (which can aggravate infection), but they also help keep the contamination from spreading. The adhesive is formulated to secure the patch for 4+ days to aid in a complete healing process. Kit contents can be purchased separately and in bulk.

Recommended Use:

- Bovine Keratoconjunctivitis (Pink Eye)

Key Features:

- Non-Toxic
- Non-Irritating
- Antibiotic-Free
- Steroid-Free
- PH Balanced
- Pre-Approved for Natural Beef and Gap Programs

Kit Contains:

- (1) 3 oz. Pink Eye Solution (Twist-Open Applicator-Top Bottle)
- (5) Biodegradable Patches*
- (1) 5 oz. Tube Eye Patch Adhesive

*Patches can be cut down to fit smaller animals, if needed

"Thank you! Started working right away and the pink eye was cleared up in just a few days. I have told all of my rancher friends and let my supplier know they should be carrying it."

NORTH SPOON RANCH
GEORGIA

Curicyn™ Pink Eye Solution

Curicyn's Pink Eye Solution is a gel-based product formulated specifically to address pink eye and its effects. It helps promote rapid healing in 1-3 days. Can be used on livestock, equine, goats, sheep, swine, companion pets and more. Easy to use. Non-invasive, one-time application.

Recommended Use:

- Bovine Keratoconjunctivitis (Pink Eye)

Key Features:

- Non-Toxic
- Non-Irritating
- Antibiotic-Free
- Steroid-Free
- PH Balanced
- Pre-Approved for Natural Beef and Gap Programs

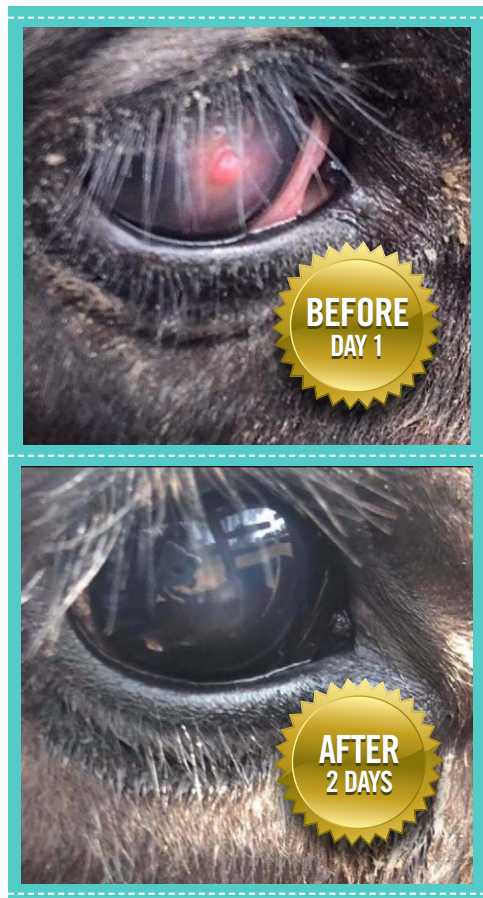

2 Size Options Available:

- 3 oz. Twist-Open Applicator Bottle
Note: 10 doses per bottle.
Enough for 5 head (10 eyes).
- 24 oz. Adjustable, Trigger Spray Bottle
Note 10cc for each dose; 70 doses.
Enough for 35 head (70 eyes).

"After using Curicyn Pink Eye Solution, my steer's right eye was saved and has now regained sight."

- (1) Tweezers
- (1) Roll Medical Tape
- (1) Hoof Pick
- (1) Thermometer

An essential item for:

*Competitions • Trail Rides • Ranching
Hunting • Barns • Trailers • Trucks*

Curicyn™ Hoof Care Kit

The Curicyn Hoof Care Kit is an innovative product developed to address the complicated hoof issues that many equine and livestock species face. The single-application kit contains a specially designed absorbent, adhesive hoof pad containing an integral formula delivery tube. The pad holds the powerful Curicyn Original Formula (3 oz.) in contact with the sole of the hoof under a unique rubber boot, allowing the hoof to soak in the Curicyn Solution for 24-48 hours. Detailed application instructions included.

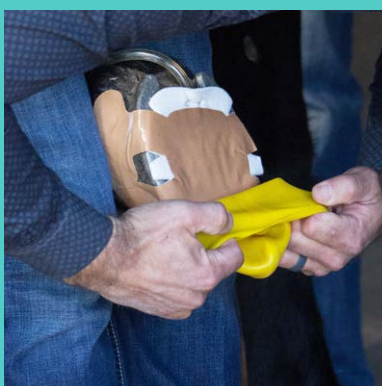

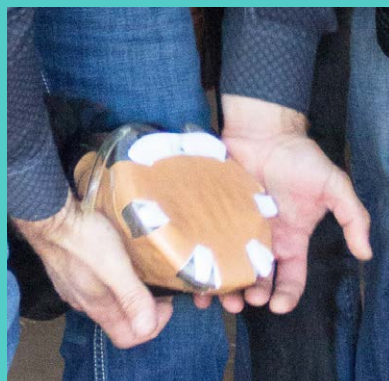

Recommended Use:

- Thrush
- Abscesses
- Bruised Sole or Injury
- White Line Disease
- Hot Nails
- Puncture Wounds
- Cracks

The Hoof Care Kit Treatment Method

Center the treatment pad in contact with the bottom of the hoof. Remove the release paper from one adhesive tab at a time and press firmly to the side of the hoof. Repeat until all adhesive tabs are securely attached.

While holding the hoof with pad attached, stretch open the rubber boot and, starting at the front of the hoof, stretch the rubber boot over the treatment pad and hoof. Adjust for a good fit. The clear tube should be positioned at the rear center of the hoof and should protrude from the rubber boot.

Place the hoof on the ground and remove the cap from the treatment solution bottle. Remove the foil seal, replace the cap and then cut off the tip. Insert the bottle tip into the clear tube and squeeze the full contents into the treatment pad and rubber boot assembly. Inspect the treated area every 2-3 days and repeat treatment as necessary with a new kit.

BodyGuard™ Fly, Flea, Tick and Insect Repellent

Curicyn BodyGuard Fly, Flea, Tick and Insect Repellent is 100% non-toxic to humans and animals. Other leading brands require their liquid product to come into direct contact with pests, but BodyGuard works via “vapor” transmission to olfactory receptors in the pests. This means less product needs to be applied to the animal. Tests by a leading U.S. university showed that our formulation is three times as effective as other major brands.

5 Size Options Available:

- 2 oz. Spray Bottle (companion pet application; travel size)
- 8 oz. Spray Bottle (companion pet application)
- 24 oz. Adjustable Trigger Spray Bottle (large animal or companion pet; most universal package)
- 1 gal. Refill Bottle (large animal or companion pet)
- 1.33 gal. Pump Spray Bottle (large animal or livestock)

Our formula's advantages

- Innovative essential oil-based fly repellent (Geraniol), a “minimal risk” pesticide which poses no risk to humans or animals
- Non-offensive odor
- Scientifically proven to be 3x more effective than leading brands
- Repels nuisance insects such as flies, fleas, ticks and mosquitoes
- Causes insects to retreat instantaneously from the animal
- Variety of sizes for multiple uses
- High-quality sprayers
- Cost-effective
- Fly, flea and tick formula is safe and effective for both large animals and companion pets

- DEET-Free
- Permethrin-Free
- No Harsh Odors
- Natural Botanical Oil-Based Formula
- Use on Horses, Cattle, Pets and All Animal Species
- Highly Effective!

FOR ALL ANIMALS

“Just received and used right away! We are in a small barn (20 horses) and there is no fly control other than bags/strips. The fly population has gotten so bad over the years. This fly spray seems to be keeping the flies away from my horse. I already recommended to others at my barn. Great spray bottle!”
JOANNA S.
